330A

Power Amplifier

MOON
by SIMAUDIO

Bred directly from its bigger brethren, the MOON 330A represents not only an amazing value, but also amazing sound, period. It delivers tight, extended and superbly tuneful bass with power, weight and articulation. Vocals and cymbals float in a musical space filled with the air and natural ambience of a musical experience. When mated with the MOON 390, the combination provides a stratospheric performance.

- Balanced differential circuitry.
- Precision matched proprietary MOON Bipolar output transistors for improved bass response and accurate sonic reproduction.
- An oversized power supply using a custom proprietary toroidal transformer design.
- A high damping factor yielding superior musical dynamics, improved signal speed & refined timbre accuracy.
- "Class A" output to 5 watts for greater efficiency.
- Optimized selection of very high quality electronic components.

Specifications

Output Power at 8Ω	125W per channel	Gain	31 dB
Output Power at 4Ω	250 W per channel	THD (20Hz - 20kHz @ 1W)	0.02%
Output Power - Bridged mono at 8Ω	400W	THD (20Hz - 20kHz @ 125W)	0.05%
Input Sensitivity	800mV	Intermodulation distortion	0.02%
Input Impedance	47,500Ω	Signal-to-noise Ratio	100dB @ full power
Shipping weight	33lb/15kg	Frequency response (full range)	10Hz - 125kHz +0/-3dB
Dimensions (width x height x depth)	16.9 x 3.5 x 14.0 in 42.9 x 8.9 x 35.6 cm		

Available Finishes Black 2-Tone Silver
